1-tetradecanamine, N,N-dimethyl-	3332-27-2	Skin corrosion/irritation: Category 2, Eye	5-9	
, N-oxide		damage/irritation: Category 1; H315, H318		
Water	7732-18-5	Not classified	Balance	

4. First aid measures

4.1	Description of first-aid measures						
	General advice:	Show this material safety data sheet to medical personnel. Do not leave affected person unattended. Isolate exposed apparel for laundry before re-use.					
	If inhaled:	Remove from area to fresh air. Seek medical attention if respiratory irritation develops or if breathing becomes difficult.					
	Skin contact:	Wash affected areas with plenty of water. Seek medical attention if irritation develops or persists. Take off contaminated clothing and wash it before reuse.					
	Eye contact:	Rinse eyes with water. Remove any contact lenses, and continue flushing eyes with running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water. Immediately call a POISON CENTER/doctor.					
	Ingestion:	Do not give anything by mouth to an unconscious or convulsing person. Rinse mouth with water. Prevent aspiration of vomit.					
4.2	Most important symptoms and effects, both acute and delayed						
	Risks:	Prolonged or repeated skin contact may aggravate existing skin conditions. Inhalation of mists may aggravate existing chronic respiratory conditions such as asthma, emphysema or bronchitis.					
4.3	Indication of any immediate medical attention and special treatment needed						
		All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred. Treat symptomatically.					

5. Firefighting measures

Flash Point and Method: No flash <200°F (SetaFlash Closed Cup)

Flammability class: Non-flammable

0	ition temperature: No information available bility/Explosive limit: No information available	
5.1	Extinguishing media	
	Suitable extinguishing media:	Water spray, foam, multi-purpose powders, carbon dioxide (CO2) Use media suitable for the material that is burning.
	Unsuitable extinguishing media:	High volume water jet (frothing possible)
5.2	Special hazards arising from the substan	ce or mixture
	Special hazards during fire fighting:	Container may rupture on heating. Harmful or toxic vapors may be released.
	On combustion or on thermal decomposition	: On combustion release of carbon oxides
5.3	Advice for firefighters	
	Special protective equipment for firefighters:	As in any fire, wear NIOSH/MSHA approved, pressure-demand self- contained breathing apparatus and full protective gear.
	Specific firefighting methods:	Move containers from area if it can be done without risk. Cool fire- exposed containers with water from side. Contain the extinguishing fluids by diking

6. Accidental release measures

6.1	Personal precautions, protective equipment and emergency procedures Spill area may be slippery. Wear appropriate protective equipment (See Section 8).				
6.2	Environmental pr	ecautions			
	Do not flush into su	urface water or sanitary sewer system			
6.3	Methods and mat	erial for containment and cleaning up			
	Recovery:	Stop leak if safe to do so. Absorb spills with vermiculite, fuller's earth, or sand. Shovel up and place in a non-metal waste container for disposal. Dike large spills with soil or sandbags to contain it and prevent its spread. Keep in suitable, properly labeled, closed containers for disposal.			
	Decontamination/				
	cleaning:	Wash non-recoverable remainder with large amounts of water. Clean contaminated surfaces thoroughly. Recover the cleaning water for subsequent disposal.			
	Disposal:	Dispose of in accordance with local regulations.			
	Additional advice:	Spill area may be slippery.			

Reference to other sections 6.4

7.	Handling and storage	
7.1	Precautions for safe handling	
	Technical measures:	Does not require any specific or particular measures
	Advice on safe handling and usage:	Do not get this material in contact with eyes. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate protective equipment including long chemical resistant gloves, chemical splash goggles and protective footwear. For continued or severe exposure, wear a face shield over goggles. Wash affected areas after use. Do not taste or swallow. Avoid breathing vapors or mists. Handle in accordance with good industrial hygiene and safety practice. Use only with adequate ventilation. Avoid release to the environment. Product residue may remain on/in empty containers. All precautions for handling the product must be used in handling the empty container and residue. FOR COMMERCIAL AND INDUSTRIAL USE ONLY.
7.2	Conditions for safe storage, includ	
	Technical measures for storage:	Does not require any specific or particular measures
	Storage conditions	
	Recommended:	Keep container tightly closed. Keep away from heat, and sunlight. Storage temperature range: 5-30°C. If material freezes, gently thaw prior to use. Mild agitation may be required.
	Incompatible products:	Hazardous reactions may occur on contact with certain chemicals. Refer to the list of incompatible materials section 10: "Stability-Reactivity"
7.3	Specific end use(s)	···· ··· ········ ····················
	No information available	
8.	Exposure controls/personal protect	tion

Introductory remarks:

These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and piping systems for maintenance and repairs. Waste resulting from these procedures should be handled in accordance with Section 13: Disposal considerations.

Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers

Control parameters 8.1

Components with workplace control parameters

Components Contains no substances with occupational exposure limit values		V	/alue type	Value	Basis
		ational			
expo					
8.2	Exposure controls Control measures				
	Engineering measures:				be exposed to elevated temperatures, use local position products.
	Personal protective equi	oment			
	Respiratory protection:	•		0	ed, wear a NIOSH/MSHA approved respirator that alified person for the specific work conditions.
	Hand protection:	Wear natur	al rubber alo	ves Ohserve i	instructions regarding permeability and breakthrough

has been selected by a technically qualified person for the specific work conditions.
Wear natural rubber gloves. Observe instructions regarding permeability and breakthrough time provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion and contact time.
Wear safety glasses with side shields or goggles. Eye and face protection requirements will vary dependent upon work environment conditions and material handling practices. Appropriate ANSI Z87 approved equipment should be selected for the particular use intended for this material.
Wear footwear protecting against chemicals, and impervious clothing. Choose body protection according to the amount and concentration of the substances in the workplace.
 Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material: 1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored. 2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.

3) Wash exposed skin promptly to remove accidental splashes or contact with material.

Protective measures: Ensure that eyewash stations and safety showers are close to the workstation location, and that emergency equipment is immediately accessible with instructions for use. The protective equipment must be selected in accordance with current local standards and in following proper use instructions from the supplier of the protective equipment. Selection of appropriate personal protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.

9. Physical and chemical properties

Physical and chemical properties listed represent typical properties and should not be considered product specifications. Refer to product Certificate of Analysis for Product Specifications or contact Gray Beard Solutions for additional information.

Information on basic physical and cl	hemical properties		
Appearance:	Clear, colorless liquid		
Odor:	Mild characteristic soapy		
Odor Threshold:	No data available		
pH:	5.5-8.5 (10% aqueous solution)		
Freezing point:	No information available		
Melting point/range:	No information available		
Boiling point/boiling range:	No information available		
Flash point:	No flash <200°F (SetaFlash Closed Cup)		
Evaporation rate:	No information available		
Flammability (solid, gas):	No information available		
Flammability/Explosive limit:	No information available		
Auto-ignition temperature:	No information available

10. Stability and reactivity

10.1	Reactivity
	No information available
10.2	Chemical stability
	Stable under normal conditions
10.3	Possibility of hazardous reactions
	Hazardous polymerization does not occur
10.4	Conditions to avoid
	No information available
10.5	Incompatible materials
	No information available
10.6	Hazardous decomposition products
	On combustion or on thermal decomposition: oxides of carbon and nitrogen, aldehydes, flammable hydrocarbon fragments
	naginenis

11. Toxicological information

11.1 Information on toxicological effects

Acute toxicity	
Acute oral:	LD ₅₀ >5,000 mg/kg
Acute dermal:	LD ₅₀ >5,000 mg/kg
Acute inhalation:	No information available
Acute toxicity (other routes of administration):	No information available
Skin corrosion/irritation	
Skin irritation:	Causes skin irritation
Serious eye damage/eye irritation	
Eye irritation:	Causes serious eye damage
Respiratory or skin sensitization	
Sensitization:	Not classified as sensitizing by skin contact

CMR Summary-

Carcinogenicity Carcinogenicity: This product does not contain any ingredient designated as probable or suspected human carcinogens by IARC, ACGIH Mutagenicity Genotoxicity in vitro: No information available Genotoxicity in vivo: No information available Reproduction and development toxicity Toxicity to reproduction/fertility: No information available Developmental toxicity/teratogenicity: No information available Specific Target Organ Toxicity (STOT) STOT-single exposure: Not a toxicant STOT-repeated exposure: No information available Aspiration toxicity Aspiration toxicity: Based on physical properties, not likely to be an aspiration hazard **Other Hazards** No information available 12. **Ecological information** 12.1 Toxicity Invertebrate (Daphnia magna): EC₅₀ 10-100 mg/L, 48hrs. Aquatic toxicity: Fish (Oryzias latipes): LC50 10-100 mg/L, 96hrs Fish (Brachydanio rerio): LC50 10-100 mg/L, 96hrs Acute aquatic toxicity, Category 3: Harmful to aquatic life 12.2 Persistence and degradability Readily biodegradable (OECD 301B) **Biodegradation:** 12.3 **Bioaccumulative potential** Partition coefficient: n-octanol/water: Not applicable Surface-Active Bioconcentration factor (BCF): Not bioaccumulable 12.4 Mobility in soil Known distribution to environmental compartments: Ultimate destination of the product: Water/Sediment Results of PBT and vPvB assessment 12.5 No information available Other adverse effects 12.6 Environmental assessment: Toxic to aquatic life 13. **Disposal considerations** 13.1 Waste treatment methods RCRA Waste Code: Not regulated under RCRA 40CFR261 Product disposal: Observe all applicable federal, state, and local regulations. Packaging: Remove all residue when emptying. 14. Transportation information DOT Hazard Classification: Not dangerous goods, not regulated NMFC: 50303
