

SAFETY DATA SHEET

1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name: **Velox PE-8180**

1.2 Relevant identified uses of the substance or mixture and uses advised against

Uses of the Substance/Mixture: Surfactant, emulsifier, detergent ingredient, (for further information refer to the product technical datasheet)

1.3 Details of the supplier of the safety data sheet

Company: Gray Beard Solutions
1931G Rohlwing Road
Rolling Meadows, IL 60008

Prepared by: MSDS Coordinator

Date prepared: 7/13/2018 Supersedes: 7/5/2018 Reason for revision: Review and update

1.4 Emergency telephone

Emergency telephone number: CHEMTREC 800-424-9300

2. Hazards identification

2.1 Emergency overview

Appearance: Clear to hazy pale amber solution with characteristic odor

Precautionary statements: Causes skin irritation and serious eye damage
Harmful if swallowed

GHS classification

Health

Serious eye damage/eye irritation	Category 1
Skin corrosion/irritation	Category 2
Acute toxicity (oral)	Category 4

2.2 GHS label elements, including precautionary statements

Hazard pictograms/symbols

Signal Word: **DANGER!**

Hazard Statements: H302: Harmful if swallowed
H315: Causes skin irritation
H318: Causes serious eye damage

Precautionary Statements:

Prevention

P262: Do not get in eyes, on skin, or on clothing
P264: Wash affected areas thoroughly after handling
P270: Do not eat, drink or smoke when using this product
P280: Wear protective gloves and eye, face and foot protection

Response

P301+P312+P330+P331: IF SWALLOWED: Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell. Do NOT induce vomiting.
P303+P361+P353: IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310: Immediately call a POISON CENTER or doctor/physician
P363: Wash contaminated clothing before reuse

Storage

P233: Keep container tightly closed
P234: Keep only in original container
P501: Dispose of contents and container to an approved waste disposal plant

2.3 Other hazards

No information available

3. Composition/information on ingredients

3.1 Information on components and impurities

Chemical name	CAS number(s)	GHS Classification	Concentration, %
Poly(oxy-1,2-ethanediyl), α -tridecyl- ω -hydroxy-, phosphate	9046-01-9	Serious eye damage/eye irritation: Category 1, Skin corrosion/irritation: Category 2, Acute toxicity (oral): Category 4; H302, H315, H318	≥ 97 - ≤ 100
Other components		Not classified	Balance

4. First aid measures

4.1 Description of first-aid measures

- General advice: Show this material safety data sheet to medical personnel. Do not leave affected person unattended. Isolate exposed apparel for laundry before re-use.
- Eye contact: Rinse eyes with water. Remove any contact lenses, and continue flushing eyes with running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water. Seek medical attention if irritation develops or persists.
- Skin contact: Take off contaminated clothing and shoes immediately. Wash affected areas with plenty of water. Seek medical attention if irritation develops or persists.
- Ingestion: Do NOT induce vomiting. Do not give anything by mouth to an unconscious or convulsing person. Rinse mouth with water. Seek medical attention.
- If inhaled: Remove from area to fresh air. Seek medical attention if respiratory irritation develops or if breathing becomes difficult.

4.2 Most important symptoms and effects, both acute and delayed

- Risks: The most important known symptoms and effects are described in the labeling (section 2.2) and/or in section 11. Corrosive effects. Symptoms may include stinging, tearing, redness, swelling and blurred vision. Permanent eye damage including blindness could result. Prolonged or repeated skin contact may aggravate existing skin conditions. Inhalation of mists may aggravate existing chronic respiratory conditions such as asthma, emphysema or bronchitis.

4.3 Indication of any immediate medical attention and special treatment needed

- Note to physician: All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred. Treat symptomatically.

5. Firefighting measures

Flash Point and Method: None

5.1 Extinguishing media

- Suitable extinguishing media: The product is not flammable
Use media suitable for the material that is burning
- Unsuitable extinguishing media: No data available

5.2 Special hazards arising from the substance or mixture

- Special hazards during fire fighting: Container may rupture on heating
- On combustion or on thermal decomposition: May include carbon oxides, nitrogen oxides

5.3 Advice for firefighters

- Special protective equipment for firefighters: As in any fire, wear NIOSH/MSHA approved, pressure-demand self-contained breathing apparatus and full protective gear.
- Specific firefighting methods: No special methods required. Move containers from area if it can be done without risk. Cool fire-exposed containers with water from side. Contain the extinguishing fluids by diking.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Spill area may be slippery. Wear appropriate protective equipment (See Section 8).

6.2 Environmental precautions

Avoid contact of spilled material and runoff with soil and surface waterways

6.3 Methods and material for containment and cleaning up

Recovery: Stop leak if safe to do so. Absorb spills with vermiculite, fuller's earth, or sand. Shovel up and place in a non-metal waste container for disposal. Dike large spills with soil or sandbags to contain it and prevent its spread. Keep in suitable, properly labeled, closed containers for disposal.

Decontamination/cleaning: Wash non-recoverable remainder with large amounts of water. Clean contaminated surfaces thoroughly. Recover the cleaning water for subsequent disposal.

Disposal: Dispose of in accordance with local regulations

Additional advice: Spill area may be slippery

6.4 Reference to other sections

No information available

7. Handling and storage

7.1 Precautions for safe handling

Technical measures:

Does not require any specific or particular measures

Advice on safe handling and usage:

Wear appropriate protective equipment including long chemical resistant gloves, chemical splash goggles and protective footwear. Handle in accordance with good industrial hygiene and safety practice. Do not spray toward face. Wash affected areas after use. Do not taste or swallow. Avoid breathing vapors or mists. Use only with adequate ventilation. Product residue may remain on/in empty containers. All precautions for handling the product must be used in handling the empty container and residue. FOR COMMERCIAL AND INDUSTRIAL USE ONLY.

7.2 Conditions for safe storage, including any incompatibilities

Technical measures for storage:

Does not require any specific or particular measures

Storage class (TRGS 510): Non-combustible, corrosive materials

Storage conditions

Recommended:

Keep container tightly closed. Opened containers must be carefully resealed and kept upright to prevent leakage.

Incompatible products:

Hazardous reactions may occur on contact with certain chemicals. Refer to the list of incompatible materials section 10: "Incompatible materials"

7.3 Specific end use(s)

No information available

8. Exposure controls/personal protection

Introductory remarks:

These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and piping systems for maintenance and repairs. Waste resulting from these procedures should be handled in accordance with Section 13: Disposal considerations.

Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers

8.1 Control parameters

Components with workplace control parameters

Components	Value	Control parameters	Basis
Not reportable			

8.2 Exposure controls**Control measures**

Engineering measures:

Good general ventilation should be sufficient to control airborne levels. Respiratory protection is not required if good ventilation is maintained.

Personal protective equipment

Respiratory protection:

In operations where mists are generated, wear a NIOSH/MSHA approved respirator that has been selected by a technically qualified person for the specific work conditions.

Hand protection:

Wear long chemical resistant gloves. Observe instructions regarding permeability and breakthrough time provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion and contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection:

Wear chemical splash goggles.

Skin and body protection:

Wear footwear protecting against chemicals, and impervious clothing. Choose body protection according to the amount and concentration of the substances in the workplace.

Hygiene measures:

Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material:

- 1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
- 2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
- 3) Wash exposed skin promptly to remove accidental splashes or contact with material.

Protective measures:

Ensure that eyewash stations and safety showers are close to the workstation location, and that emergency equipment is immediately accessible with instructions for use.

The protective equipment must be selected in accordance with current local standards and in following proper use instructions from the supplier of the protective equipment.

Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.

9. Physical and chemical properties

Physical and chemical properties listed represent typical properties and should not be considered product specifications. Refer to product Certificate of Analysis for Product Specifications or contact Gray Beard Solutions for additional information.

9.1 Information on basic physical and chemical properties

Appearance:	Clear solution
Odor:	Characteristic odor
Odor Threshold:	No information available
pH:	1.5-3.5
Freezing point:	No information available
Melting point/range:	No information available
Boiling point/boiling range:	>100°C
Flash point:	Does not flash
Evaporation rate:	No information available
Flammability (solid, gas):	Not applicable
Flammability/Explosive limit:	No information available
Auto-ignition temperature:	No information available
Vapor pressure:	No information available
Vapor density:	No information available
Density:	1.06 g/ml, 8.8 lbs/gal (25°C)
Solubility:	Water solubility: soluble
Solubility in other solvents:	No information available
Partition coefficient: n-octanol/water:	No information available
Thermal decomposition:	No information available
Viscosity:	Moderate viscosity
Explosive properties:	No information available
Oxidizing properties:	No information available

9.2 Other information

No information available

10. Stability and reactivity

10.1 Reactivity

No information available

10.2 Chemical stability

Stable and non-reactive under normal conditions of use, storage and transport

10.3 Possibility of hazardous reactions

No information available

10.4 Conditions to avoid

No information available

10.5 Incompatible materials

No information available

10.6 Hazardous decomposition products

Oxides of carbon

11. Toxicological information

Product Summary:

Causes skin irritation and serious eye damage. Harmful if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly digestive tract. Vapors and spray mist may irritate throat and respiratory system and cause coughing.

No data available for the teratogenicity, mutagenicity, or reproductive toxicity of this product. No data available to designate the product as causing specific target organ toxicity through repeated exposure. No data available to designate product as an aspiration hazard.

Information on likely routes of exposure:

Eye contact	Corrosive. Causes serious eye damage. Symptoms may include pain, burning sensation, redness, watering, blurred vision or loss of vision.
Skin contact	Causes skin irritation. Symptoms may include redness and pain (which may be delayed).
Ingestion	Harmful if swallowed. Symptoms may include vomiting, nausea, and/or feeling of general unwellness.
Inhalation	No adverse effects due to inhalation are expected.
Sensitization	No known effects

11.1 Information on toxicological effects**Acute toxicity**

Acute oral:	LD ₅₀ >1000 mg/kg
Acute dermal:	LD ₅₀ >2000 mg/kg
Acute inhalation:	No information available
Acute toxicity (other):	No information available

Skin corrosion/irritation

Skin irritation: Causes irritation

Serious eye damage/eye irritation

Eye irritation: Corrosive. Causes serious eye damage.

Respiratory or skin sensitization	
Sensitization:	Not classified as sensitizing by skin contact
Mutagenicity	
Genotoxicity in vitro:	No information available
Genotoxicity in vivo:	No information available
Carcinogenicity	
Carcinogenicity:	This product does not contain any ingredient designated as probable or suspected human carcinogens by IARC, ACGIH
Toxicity for reproduction and development	
Toxicity to reproduction/fertility:	No information available
Developmental toxicity/teratogenicity:	No information available
Specific Target Organ Toxicity (STOT)	
STOT-single exposure:	No information available
STOT-repeated exposure:	No information available
Aspiration toxicity	
Aspiration toxicity:	No information available

Other Hazards

No information available

12. Ecological information

12.1 Toxicity	
Aquatic toxicity:	Algae EC ₅₀ : >1 mg/l, 72 hours Crustacea EC ₅₀ (<i>Daphnia</i>): >1 mg/l, 48 hours Fish LC ₅₀ : >1 mg/l, 96 hours
12.2 Persistence and degradability	
Biodegradation:	Expected to be inherently biodegradable
12.3 Bioaccumulative potential	
Partition coefficient: n-octanol/water:	No bioaccumulation is to be expected (log Pow<=4)
Bioconcentration factor (BCF):	No information available
12.4 Mobility in soil	
Known distribution to environmental compartments:	No information available
12.5 Results of PBT and vPvB assessment	
No information available	
12.6 Other adverse effects	
Environmental assessment:	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this product.

13. Disposal considerations

13.1 Waste treatment methods	
RCRA Waste Code:	Not regulated under RCRA 40CFR261
Product disposal:	Observe all applicable federal, state, and local regulations
Packaging:	Remove all residue when emptying

14. Transportation information

DOT Hazard Classification: Not regulated

15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
