

SAFETY DATA SHEET

1. Identification of the substance/mixture and of the company/undertaking	
1.1 Product identifier	Trade name: Velox AO-180
1.2 Relevant identified uses of the substance or mixture and uses advised against	Uses of the Substance/Mixture: Emulsifier (for further information refer to the product technical datasheet)
1.3 Details of the supplier of the safety data sheet	Company: Gray Beard Solutions 1931G Rohlwing Road Rolling Meadows, IL 60008 Prepared by: SDS Coordinator Date prepared: 8/10/2018 Supersedes: 6/19/2015 Revision: Review and update
1.4 Emergency telephone	Emergency telephone number: CHEMTREC 800-424-9300
2. Hazards identification	
GHS classification	Physical Hazards: Not classified Health Hazards: Eye Irritation-Category 2B Environmental Hazards: Not classified
GHS label elements	Hazard pictograms/symbols: Not classified Signal Word: Warning Hazard Statements: H320: Causes eye irritation
Precautionary Statements:	Prevention: P262: Do not get in eyes P280: Wear eye protection Response: P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313: If eye irritation persists, get medical advice/attention.
2.1 Emergency overview	Appearance: Viscous amber solution with a mild odor. Warning statements: Repeated/prolonged contact may cause eye and skin irritation. This product is NOT considered a dermal sensitizing agent. Inhalation may cause mucous membrane irritation. Ingestion may cause gastrointestinal discomfort including irritation, nausea and diarrhea.
2.2 Potential health effects	Inhalation effect: Direct contact or exposure to high concentration of mists or vapors may cause irritation. Skin effect: Short periods of contact are not usually associated with skin irritation. This product is NOT considered to be a dermal sensitizing agent. Eye effect: Direct contact or exposure to mists may cause irritation. Ingestion effect: Direct contact or exposure may cause irritation. Ingestion of large amounts may cause gastrointestinal discomfort including irritation, nausea and diarrhea. Chronic effects: Does not contain an ingredient designated by IARC, ACGIH, NTP and/or OSHA in concentrations of 0.1 percent or greater as probable or suspected human carcinogens
2.3 Other hazards	No information available

3. Composition/information on ingredients

3.1 Information on components and impurities

Chemical name	CAS number(s)	GHS Classification	Concentration, %
9-Octadecen-1-amine, N,N-dimethyl, N-oxide	14351-50-9	Serious eye damage/eye irritation: Category 2B; H320	≥28-≤32
Water	7732-18-5	Not classified	Balance

4. First aid measures

4.1 Description of first-aid measures

General advice: Show this material safety data sheet to medical personnel. Do not leave affected person unattended. Isolate exposed apparel for laundry before re-use.

If inhaled: Remove from area to fresh air. Seek medical attention if respiratory irritation develops or if breathing becomes difficult.

Skin contact: Wash affected areas with plenty of water. Seek medical attention if irritation develops or persists.

Eye contact: Rinse eyes with water. Remove any contact lenses, and continue flushing eyes with running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water. Seek medical attention if irritation develops or persists.

Ingestion: Do not give anything by mouth to an unconscious or convulsing person. Rinse mouth with water. Prevent aspiration of vomit.

4.2 Most important symptoms and effects, both acute and delayed

Risks: Prolonged or repeated skin contact may aggravate existing skin conditions. Inhalation of mists may aggravate existing chronic respiratory conditions such as asthma, emphysema or bronchitis.

4.3 Indication of any immediate medical attention and special treatment needed

Note to physician: All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred. Treat symptomatically.

5. Firefighting measures

Flash Point and Method: >200°F (SetaCC)

Flammability class: This product is not combustible.

Autoignition temperature: No information available

Flammability/Explosive limit: No information available

5.1 Extinguishing media

Suitable extinguishing media: Water spray, foam, multi-purpose powders, carbon dioxide (CO₂)
Use media suitable for the material that is burning.

Unsuitable extinguishing media: High volume water jet (frothing possible)

5.2 Special hazards arising from the substance or mixture

Special hazards during fire fighting: Container may rupture on heating. Harmful or toxic vapors may be released.

On combustion or on thermal decomposition: On combustion release of carbon oxides

5.3 Advice for firefighters

Special protective equipment for firefighters: As in any fire, wear NIOSH/MSHA approved, pressure-demand self-contained breathing apparatus and full protective gear.

Specific firefighting methods: Move containers from area if it can be done without risk. Cool fire-exposed containers with water from side. Contain the extinguishing fluids by diking

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Spill area may be slippery. Wear appropriate protective equipment (See Section 8).

6.2 Environmental precautions

Do not flush into surface water or sanitary sewer system

6.3 Methods and material for containment and cleaning up

Recovery: Stop leak if safe to do so. Absorb spills with vermiculite, fuller's earth, or sand. Shovel up and place in a non-metal waste container for disposal. Dike large spills with soil or sandbags to contain it and prevent its spread. Keep in suitable, properly labeled, closed containers for disposal.

Decontamination/cleaning: Wash non-recoverable remainder with large amounts of water. Clean contaminated surfaces thoroughly. Recover the cleaning water for subsequent disposal.

Disposal: Dispose of in accordance with local regulations.

Additional advice: Spill area may be slippery.

6.4 Reference to other sections

No information available

7.	Handling and storage	
7.1	Precautions for safe handling	
	Technical measures:	Does not require any specific or particular measures
	Advice on safe handling and usage:	Wear appropriate protective equipment. Handle in accordance with good industrial hygiene and safety practice.
7.2	Conditions for safe storage, including any incompatibilities	
	Technical measures for storage:	Does not require any specific or particular measures
	Storage conditions	
	Recommended:	Keep container tightly closed. Keep away from heat, and sunlight. Storage temperature range: 5-30°C. If material freezes, gently thaw prior to use. Mild agitation may be required.
	Incompatible products:	Hazardous reactions may occur on contact with certain chemicals. Refer to the list of incompatible materials section 10: "Stability-Reactivity"
7.3	Specific end use(s)	
	No information available	

8. Exposure controls/personal protection

Introductory remarks:

These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and piping systems for maintenance and repairs. Waste resulting from these procedures should be handled in accordance with Section 13: Disposal considerations.

Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers

8.1 Control parameters

Components with workplace control parameters

Components	Value type	Value	Basis
Contains no substances with occupational exposure limit values			

8.2 Exposure controls

Control measures

Engineering measures: In applications where the product will be exposed to elevated temperatures, use local ventilation to remove potential decomposition products.

Personal protective equipment

Respiratory protection: In operations where mists are generated, wear a NIOSH/MSHA approved respirator that has been selected by a technically qualified person for the specific work conditions.

Hand protection: Wear natural rubber gloves. Observe instructions regarding permeability and breakthrough time provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion and contact time.

Eye protection: Wear safety glasses with side shields or goggles. Eye and face protection requirements will vary dependent upon work environment conditions and material handling practices. Appropriate ANSI Z87 approved equipment should be selected for the particular use intended for this material.

Skin and body protection: Wear footwear protecting against chemicals, and impervious clothing. Choose body protection according to the amount and concentration of the substances in the workplace.

Hygiene measures: Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material:

- 1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
- 2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
- 3) Wash exposed skin promptly to remove accidental splashes or contact with material.

Protective measures: Ensure that eyewash stations and safety showers are close to the workstation location, and that emergency equipment is immediately accessible with instructions for use. The protective equipment must be selected in accordance with current local standards and in following proper use instructions from the supplier of the protective equipment. Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.

9. Physical and chemical properties

Physical and chemical properties listed represent typical properties and should not be considered product specifications. Refer to product Certificate of Analysis for Product Specifications or contact Gray Beard Solutions for additional information.

9.1 Information on basic physical and chemical properties

Appearance:	Viscous amber liquid
Odor:	Mild characteristic soapy
Odor Threshold:	No data available
pH:	5.5-8.5 (10% aqueous solution)
Freezing point:	No information available
Melting point/range:	No information available
Boiling point/boiling range:	No information available
Flash point:	> 100 °C closed cup
Evaporation rate:	No information available
Flammability (solid, gas):	No information available
Flammability/Explosive limit:	No information available
Auto-ignition temperature:	No information available
Vapor pressure:	No information available
Vapor density:	No information available
Density:	0.96 g/ml (25°C)
Solubility:	Water solubility: soluble
Solubility in other solvents:	Alcohols: soluble
Partition coefficient: n-octanol/water:	Not applicable Surface-Active
Thermal decomposition:	No information available
Viscosity:	Low viscosity
Explosive properties:	No information available
Oxidizing properties:	Not considered as oxidizing, Structure-activity relationship (SAR)

9.2 Other information

Ionic character:	Nonionic
------------------	----------

10. Stability and reactivity

10.1 Reactivity

No information available

10.2 Chemical stability

Stable under normal conditions

10.3 Possibility of hazardous reactions

Hazardous polymerization does not occur

10.4 Conditions to avoid

No information available

10.5 Incompatible materials

No information available

10.6 Hazardous decomposition products

On combustion or on thermal decomposition: oxides of carbon and nitrogen, aldehydes, flammable hydrocarbon fragments

11. Toxicological information

11.1 Information on toxicological effects
(Based on closely related materials)**Acute toxicity**

Acute oral:	LD ₅₀ >5,000 mg/kg
Acute dermal:	LD ₅₀ >5,000 mg/kg
Acute inhalation:	No information available
Acute toxicity (other routes of administration):	No information available

Skin corrosion/irritation

Skin irritation:	Mild skin irritation
------------------	----------------------

Serious eye damage/eye irritation

Eye irritation:	Moderate eye irritation
-----------------	-------------------------

Respiratory or skin sensitization

Sensitization:	Not classified as sensitizing by skin contact
----------------	---

Mutagenicity

Genotoxicity in vitro:	No information available
Genotoxicity in vivo:	No information available

Carcinogenicity

Carcinogenicity:	No information available
	This product does not contain any ingredient designated as probable or suspected human carcinogens by IARC, ACGIH

Toxicity for reproduction and development

Toxicity to reproduction/fertility:
Developmental toxicity/teratogenicity:

No information available
No information available

Specific Target Organ Toxicity (STOT)

STOT-single exposure:
STOT-repeated exposure:

Not a toxicant
No information available

Aspiration toxicity

Aspiration toxicity:

Based on physical properties, not likely to be an aspiration hazard

Other Hazards

No information available

12. Ecological information**12.1 Toxicity**

Aquatic toxicity:

No information available

12.2 Persistence and degradability

Biodegradation:

62% degradation/7 days
82% degradation/28 days
Readily biodegradable (ISO 10707)

12.3 Bioaccumulative potential

Partition coefficient: n-octanol/water:
Bioconcentration factor (BCF):

Not applicable Surface-Active
Not bioaccumulable

12.4 Mobility in soil

Known distribution to
environmental compartments:

Ultimate destination of the product: Water/Sediment

12.5 Results of PBT and vPvB assessment

No information available

12.6 Other adverse effects

Environmental assessment:

No information available

13. Disposal considerations**13.1 Waste treatment methods**

RCRA Waste Code:
Product disposal:
Packaging:

Not regulated under RCRA 40CFR261
Observe all applicable federal, state, and local regulations.
Remove all residue when emptying.

14. Transportation information

DOT Hazard Classification:

Not dangerous goods, not regulated

Further Information

Not classified as dangerous in the meaning of transport regulations. The transportation information is not intended to convey all specific regulatory data relating to this material. For complete transportation information, contact Gray Beard Solutions directly.

15. Regulatory information**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

Notification status:

Country	Regulatory list	Notification
USA	TSCA	Listed or in compliance with the requirements the inventory
Canada	DSL	Listed or in compliance with the requirements the inventory
EU	EINECS	Listed or in compliance with the requirements the inventory: EINECS: 238-311-0
Australia	AICS	Listed or in compliance with the requirements the inventory
